

NumberX is an app-based Mastercard that enables users to combine the security of their bank with the advantages of new financial technologies. The focus is on maximum freedom and flexibility, the greatest possible acceptance and, at the same time, high security and transparency. NumberX can be used via the NumberX app (iOS and Android) based on a monthly flat-rate model. The company was founded in 2020 with its headquarter in Vienna (Austria) by Claudio Wilhelmer and Matthias Seiderer and is supported by well-known partners and industry-related investors.

NumberX is looking for a world-class:

Fulltime Senior UX & Product Designer (M/F/D) - Vienna, Austria or Remote (EU)

to join our growing team, helping us to expand our company across Europe as effectively as possible. Our ideal candidate is a strong personality and must be a natural hands-on initiative-taker who has a track record of success and ability to thrive in high-growth, fast-paced environments.

What you'll be doing:

- You will work closely in a cross-functional team and actively defining customer needs
- Identify the key metrics and take ownership for achieving their success
- You will research and bring forward new findings and learnings for reaching company goals, such as launching in new territories and offering new products
- From wire-framing to designing end-to-end flows and prototypes, you will be in charge of designing products that solve problems while taking care of every small detail
- You will be running user and guerrilla testing, then iterate, implement with the technical team and present the final solution during the design reviews
- Review the performance of each release, identify learnings and find ways to enhance it

What skills you'll need:

- At least 3 years of experience in designing world-class complex commercial apps
- You enjoy working closely with a team and it's something you have done previously
- A portfolio featuring examples of product design work
- Hands-on mentality and a willingness to take an active role
- Strong execution skills and far above average drive
- Analytical driven mindset, excellent communication skills
- Strong design skills across iOS and Android
- The ability to think at a high level about product strategy, articulate design decisions, understand technical implications in their design decisions
- Strong UX focus and understanding of human behaviour
- Clean visual design sense as well skills in typography and grids
- Love to solve problems and be challenged
- Willingness to work hard in a fast-driven startup environment
- English full professional proficiency, other languages (e.g. German) are a plus
- Knowledge in (online/mobile) banking and the payment industry is a plus
- Working experience in a startup environment is a must

At NumberX it's about getting **it done and owning what you do. Our team is highly entrepreneurial and autonomous, we treat people equally and give freedom to everyone. If you believe you have what

NUMBERX

it takes, get in touch with us by dropping a line, and don't forget to attach your CV with a few sentences why you want to join us: hire@numberx.com

Depending upon the qualification and experience of the candidate, remuneration will be competitive. Due to legal reasons, we are obliged to disclose the minimum salary, which is € 2.979 gross per month (IT collective agreement). However, our attractive compensation package is based on market-oriented salaries and is usually above. The employer is a company registered in Austria with its office located in Vienna.
